## ORGANIZATION OF THE ACADEMY OF SCIENCES USSR, THE ACADEMY OF MEDICAL SCIENCES USSR, AND THE UNION REPUBLIC ACADEMIES

NOTE: This list has been compiled from data appearing in USSR scientific and technical periodical literature between January 1947 and March 1948. Since these journals ordinarily do not give information on the departmental connections of institutes and other units within the Academy of Sciences USSR, these smaller units have, as far as possible, been arranged into departments according to information given in the Scientific Intelligence Review, No 6, June 1946, Intelligence Division WDGS.

Accordingly, units listed in this publication as "other institutes" and "other units" are those appearing in recent periodical literature whose departmental status in the Academy is not clear, though connection with the Academy of Sciences is clearly stated.

No information in departmental organization, if any, within the Academy of Medical Sciences USSR has appeared in the periodical literature; accordingly, the breakdown given here is by institutes and smaller units.

In preparing this list only Russian-language periodical literature was used; therefore, only those units of the Union Republic Academies appear that have recently been published in the Russian-language journals of the Academy of Sciences USSR.

The departments of history and philosophy, economics and law, and literature and language of the Academy of Sciences USSR have been omitted from this list.

Additions and corrections will be made in the future and a new publication issued as soon as sufficient data has been collected.
